

SOUFIANE ZRIDA

Cybersecurity Engineering Student — 5th year, UIR (Academic Exchange — ESILV)

Seeking a 4-6 month final-year internship (PFE) — Expected graduation: June 2027

Age: 21

PROFESSIONAL PROFILE

Final-year engineering student in Computer Science, majoring in Cybersecurity (UIR), currently on academic exchange at ESILV. Seeking a 4-6 month final-year internship (PFE), ideally leading to a full-time role, in offensive security, cyber defense, vulnerability management, or incident response. Hands-on professional experience with Nmap, Burp Suite, Wazuh, and FortiGate.

PROFESSIONAL EXPERIENCE

Cybersecurity Intern | Ministry of Economy and Finance

Rabat, Morocco — June – July 2026

- Secured network infrastructure and configured FortiGate (firewall) and FortiWeb (WAF) cyber defense equipment, defining filtering rules and application protection policies.
- Carried out penetration tests on a DVWA environment: identified application vulnerabilities (injections, XSS, access control issues) and wrote detailed technical reports for the IT team.
- Contributed to network traffic monitoring and incident follow-up flagged by cyber defense equipment.

Cybersecurity & AI Intern | Université Internationale de Rabat (UIR)

Rabat, Morocco — June – August 2026

- Built automated detection of influence and awareness (security-awareness) techniques using NLP/Transformer models.
- Designed the data pipeline: collection, cleaning, and annotation of text corpora for model training.
- Evaluated model performance and proposed improvements for large-scale detection.

Cybersecurity Engineering Intern | NOVEC — Technopolis

Salé Al Jadida, Morocco — June – July 2025

- Mapped the information system's security architecture (critical assets, DMZ zones) to identify exposure points.
- Reviewed Linux and Windows Server configurations, aligned with ISO 27001 and ANSSI standards.
- Assessed risk through CVSS-based vulnerability prioritization and wrote hardening recommendations for technical teams.

Technician Intern | Transport Mers El Kheir

Témara, Morocco — August – Sept. 2024

- First hands-on IT experience: observed the company's network infrastructure and daily operations.
- Applied and followed basic security protocols on workstations and network equipment.

PROJECTS & COMPETITIONS

SIEM & Intrusion Detection (Cyber Defense) — 2026

- Deployed a full Wazuh stack (Manager, Indexer, Dashboard) with a Sysmon agent for event collection and correlation.
- Simulated real-world attacks (Nmap scanning, brute force, privilege escalation) and classified observed techniques using the MITRE ATT&CK framework.
- Set up detection rules and dashboards for real-time alert monitoring.

Infrastructure Hardening & Penetration Testing (Active Directory) — 2026

- Deployed an Active Directory environment on Windows Server 2022 and hardened associated Linux configurations.
- Performed penetration tests (Hydra, Nmap, SMB enumeration) to identify configuration flaws and poorly protected privileged accounts.
- Analyzed system and network logs for post-incident digital forensics.

S.H.I.E.L.D Cyber Academy CTF — UIR — May 2026

- Team competition focused on penetration testing: web reconnaissance, IDOR exploitation, and SQL injection.
- Escalated privileges on target machines and wrote post-CTF debriefs.

CYBrAln CTF — April 2026

- Digital forensics, network, and cryptography challenges under time pressure.
- Team ranked in the Top 10 of the final leaderboard.

TECHNICAL SKILLS

Offensive Security & Pentest: Kali Linux, Metasploit, Burp Suite, Nmap, Nessus, OWASP ZAP, Wireshark, Hydra

Cyber Defense & Detection: SIEM (Wazuh, Splunk), IDS/IPS, FortiGate, FortiWeb (WAF), system hardening, MITRE ATT&CK

Governance & Risk: CVSS, ISO 27001, ANSSI, CVE/NIST, Security architecture

Systems & Networks: Windows Server (AD, GPO), Linux (Ubuntu, PAM), TCP/IP, VPN, Cloud (Azure/GCP)

Development & Tools: Python, React.js, HTML/CSS, SQL, Docker

EDUCATION

Engineering Degree — Computer Science, Cybersecurity major — UIR (2022 – 2027)

Academic Exchange — ESILV, France (2026)

Baccalaureate in Physics and Chemistry — Lycée Abou Bakr Assidik, Témara (2022)

CERTIFICATIONS

- Cisco Ethical Hacker (verified badge) — Cisco (Feb. 2026)
- Cybersecurity Foundation — Palo Alto Networks (May 2026)
- ISO/IEC 27001:2022 Information Security Associate — SkillFront (Sept. 2026)
- ISO/IEC 20000 IT Service Management Associate — SkillFront (Sept. 2026)
- Red Hat System Administration I (RH124) — Red Hat (Apr. 2026)
- Red Hat System Administration II (RH134) — Red Hat (Apr. 2026)
- Python Course — Prohma Academy
- SQL Course — Prohma Academy
- English & Spanish — GlobalExam (Jan. 2025)
- TCF — France Éducation International (Aug. 2023)
- Certificate of Participation — Content & Coding Hackathon, LionsGeek (Nov. 2022)
